**Digido Finance Corp.**

**COOKIES POLICY**

This website uses cookies to improve and optimize the user experience. By browsing and continuing on our website you give a consent to the use of cookies under the conditions specified in this Cookies Policy.

DIGIDO provides access to this Cookies Policy by means of a notice sufficiently visible at the bottom of the website and through the link to this Policy specified on the website, in order that the user is informed and without prejudice to the ability to exercise his right to block, delete and reject the use of cookies at all times.

This Cookies Policy is constantly updated that's why we recommend its periodic review.

Below you will find detailed information about what cookies are, what kind of cookies this website uses and how you can deactivate them in your browser.

**What are cookies?**

A cookie is a file that is downloaded to the user's device when accessing certain web pages to store and retrieve information about the navigation that is made from that computer. Among other things Cookies allow the web to store and retrieve information about the decisions and habits of the user. When using, cookies are downloaded to your computer automatically, stored on the hard disk along with the information transferred.

**Why do we use cookies on DIGIDO?**

On DIGIDO we use cookies to personalize the experience within our websites, identify and remember the registered user and facilitate navigation. The data obtained by cookies will serve to improve our website and the services we offer. In addition, cookies personalize the services and the advertising, facilitating and offering to each user information that is of their interest or that may be of their interest, in attention to the use of our services.

It is important to note that the use of cookies does not provide the user's personal data. Cookies are only associated with an anonymous user and his computer, and do not provide references that allow to get personal data of the user, that's why the information collected will not contain any identification data. The personal data that allows identification will not be shared.

**What kind of cookies does the DIGIDO website use?**

1. Depending on the entity that manages them: own cookies or third party cookies.

**Own cookies** are sent to the user's terminal equipment from a computer or domain managed by Digido Finance Corp. and from which the service requested by the user is provided.

In contrast**, third-party cookies** are sent to the user's terminal equipment from a computer or domain that is not managed by Digido Finance Corp., but by another entity that treats the data obtained through cookies.

**Digido Finance Corp.**

2. Depending on the permanence of cookies: session cookies or persistent cookies.

This website uses session cookies, which collect and store data while the user is getting access to the web page, and persistent cookies, such as analytical and advertising.
**Session cookies** are those that remain in the browser's cookie file until the web page is left, so it is not registered on the user's hard disk. The information obtained through these cookies serves to analyze traffic patterns on the web. In the long run, this provides a better user experience and helps to improve content by facilitating its use. Session cookies expire when the user closes the browser.

Instead, **persistent cookies** are stored in the user's terminal so that the collected data can be accessed and processed during a period defined by the person responsible for the cookie, which can range from a few minutes to several years. These cookies expire when the purpose for which they serve is fulfilled or when they are manually deleted.

3. Depending on its purpose: registration, technical, analytical and advertising cookies.

**Registration cookies** are generated once the user has registered or has subsequently opened his session, and are used to identify him in the services in order to keep the user identified. In this way, if you close the browser or the computer, and at another time or another day re-enter that service, it will remain identified, facilitating its navigation without having need to identify again. This functionality can be suppressed if the user clicks "close session", so this cookie is deleted and, the next time he enters the service, the user will have to log in to be identified.

Additionally, some services may use connectors with social networks such as Facebook. When the user registers with a social network credentialed service, he or she authorizes the social network to keep a persistent cookie that remembers his identity and guarantees access to the services until it expires. The user can delete this cookie and revoke the access to the services through social networks updating their preferences in the specific social network.

**Technical cookies** are those that allow the user to navigate through the website and use different options or services existing in it, such as identify the session, get access to the restricted parts, perform the process of a service request or share content through social networks.

We use technical cookies to verify the user, prevent fraudulent use of login credentials, and protect our users' data against unauthorized third parties.

**Analytic cookies** are those that are well treated by us or by third parties, allow the responsible for them to follow and analyze the behavior of users of the websites to which they are linked. The data thus collected allow us to quantify, among others, the number of users, the pages visited, the time users spend in each of them or if they are new or repeat visits, always anonymously (devices and browsers are identified, but never users).

**Digido Finance Corp.**

The information is collected through Google's cookies, Google Inc. being solely responsible for them and their use. DIGIDO does not have access at any time to the information thus collected, but only aggregated data (that is, not including personal data) provided by Google Inc. and not associated with any specific IP address. Both the purpose of processing and use of the information captured, as well as the operation and duration of Google's cookies, are determined by Google. You can get more information through the Google Privacy Center.

The information provided by Google allows us to know which of our content is the most visited and, therefore, more attractive for users, and so we are able to improve the offer of products or services that we offer.

We also use **advertising and marketing cookies** in order to know, in a disaggregated and anonymous way, the profile and provenance of those new clients who contact us through the Internet. The data thus collected is used in order to determine the effectiveness of our advertising campaigns and direct these towards those segments of consumers who may be more interested in contracting our services.

Finally, we use **behavioral advertising cookies**, which allow the management, in the most efficient possible way, of the advertising spaces that we have included in a web page. These cookies store information of the behavior of the users obtained through the continuous observation of their browsing habits, which allows to develop a specific profile to show advertising.

If you wish, you can block or disable the use of cookies by activating your browser settings, which allows you to reject the installation of all cookies or some of them.
Internet Explorer: Delete and manage cookies.
Firefox: Delete cookies.
Google Chrome: Delete, enable and manage cookies in Chrome.
Safari: Use of cookies by Apple.
**What happens if I disable cookies?**
DIGIDO informs the user that if you reject the download of cookies, some sections of our website will not work or the user will not be able to access them. If you reject or block cookies, you may not be able to use some of the services that require your identification as a user. It can also slow down the loading of some pages of this Website.
**How can I revoke the consent granted to the use of cookies by DIGIDO?**
If you wish to revoke the consent granted to the use of cookies on your computer by Digido Finance Corp., you can communicate to us at this email address: care@unapay.com.ph
If you want more information about the use of cookies made by Digido Finance Corp., you can request it through the following email address: care@unapay.com.ph.
